

SENSEBLUE

EVERYBODY IS HERE ?

Senseblue is an application that constantly scan, control and audit for digital Sensblue Smart ID card signals in defined and mobile zones.

Employees, tourists, visitors, students and group members of several events can be checked by SenseBlue mobile app easily.

Reports are created by Cloud based artificial intelligence supported SenseBlue Management Services automatically.

It is the most popular and cost effective Smart Tracking solution on the market used by travel agencies, government authorities and companies.

CORE FEATURES

FAST COUNTING

Sense 100+ group members in a seconds.

UNAUTHORISED ZONE ALERTS

Easy Visitor and Employee management.

ARTIFICIAL INTELLIGENCE REPORTS

Learning of general human behaviors and reporting unexpected actions.

MESH NETWORK

Extended coverage with SenseBlue users.
